SATCO PRODUCTS, INC. INTRODUCES NEW ENERGY-EFFICIENT A19 LAMPS

Brentwood, NY – July 2, 2009 – SATCO Products, Inc., a 2009 ENERGY STAR Partner of the Year in the lighting manufacturing category, announces the introduction of its new energy-efficient A19 and A21 Lamps. Featuring reduced wattage and higher lumens, these lamps are designed to produce the same light output using less wattage.

Available in clear or frosted bulbs, the A19 and A21 Lamps have met California's Title 20 Lumen Efficiency Requirements.

The energy-efficient A19 Lamps reduce wattage:

- 38W replaces 40W
- 57W replaces 60W
- 71W replaces 75W
- 95W replaces 100W

The energy-efficient A21 Lamps are reducing wattage with 140W bulb replacing a 150W. SATCO will continue to bring energy efficient product to market to meet the legislative requirements of its administration.

“With climate change and environmental issues at the forefront of the lighting industry, SATCO is providing lighting solutions to meet the green building and energy reduction needs that building owners and operators are looking for in both new construction and retrofit projects,” stated Bill Gildin, President of SATCO Products, Inc.

About SATCO Products, Inc.

SATCO, established in 1966, manufactures and distributes a wide variety of lighting products to an international lighting and electrical market. SATCO was named the 2009 ENERGY STAR Partner of the Year in the lighting manufacturing category, as well as 2008's “The Best of the Test” by the Good Housekeeping Research Institute. Under the SATCO brand (www.satco.com) the company's product

categories include incandescent, halogen, fluorescent, HID and energy-efficient lamps. SATCO also offers lighting and electrical components for the retail, commercial and manufacturing trade and consumer products such as night lights, desk lamps, and surge protectors. In June 2005, SATCO launched a new line of decorative and functional lighting fixtures sold under the NUVO brand (www.nuvolighting.com). The NUVO product line is strongly focused on energy efficiency with nearly 600 product styles which are ENERGY STAR qualified. An additional 2100 products service the decorative and light commercial markets.
